For 15 years now **IN MY ROSARY** are a constant within the international Alternative / Darkwave scene. Being regarded as one of the pioneers of Darkfolk at first, they soon demonstrated that one category is definitely not enough for their music.

From the very first Ralf Jesek (vocals, instruments, music, lyrics) and Dirk Lakomy (lyrics) mixed several Darkwave styles to achieve their special sound. They never cared about exterior expectations or wanted clichés - they always cut their own path. And this "dourness" combined with their mixture of Wave, Goth, Pop and Folk elements and their distinctive feeling for melodies may be the reason why the project got a faithful following all over the world - and even became a reference for other bands.

Formed in 1992 as a temporary project **IN MY ROSARY** celebrate their fifteenth anniversary with an album that shows once more all facets and qualities of this outstanding act. And which is also their fifteenth official release.

Opened by a typical intro 15 leads its listeners through the very own universe of **IN MY ROSARY**. True to their motto "less is more" they renounce big gestures and obvious poses. They try to disclose the essential. Relentlessly from a pure subjective point of view they tell about their way of seeing this world, about emotions and comprehensions, until they draw a balance of all the experiences they have made during their 15 years lasting history with the German song "Gezeiten".

Whether the songs are dominated by acoustic guitars or dominated by electronic sounds - all 15 ½ songs are on an equal footing and have their own personality. But nevertheless they are always recognizable as **IN MY ROSARY**, too. This also applies to the songs "Just Like You" and "G.T.", which were already recorded by Ralf's former Band DER-RIÈRE LE MIROIR for the album "Alibis" in 1993. But because Ralf had actually written them for **IN MY ROSARY**, Dirk had the idea of re-recording them for 15.

As bonus tracks the album also contains three remixes made by Nero (ETERNAL NIGHTMARE), Tobias Birkenbeil (UMBRA ET IMAGO) and Christian Doerge (SYRIA).

Even after one and a half decades this project still follows its independent ways and enriches the darker scene once more with another timeless little jewel.
